ABC Seamless

SIDING & ACCESSORIES

The concept of seamless steel gutters had people thinking. If a roll of coil could be formed into a gutter, could it also be formed into siding? The answer was yes and ABC Seamless made the commitment to revolutionize the siding industry. The concept of seamless siding grew so popular with homeowners that ABC Seamless became the first company to franchise this method. ABC Seamless has grown to become, "*The World's Largest Seamless Siding Company*," and to include other products like log siding, gutters, gutter protection, soffit & fascia and window & door trim.

Durable & Maintenance Free

ABC Seamless Steel Siding is an attractive and permanent investment in your home. You'll never have to scrape, paint or stain again.

Our natural woodgrain look will give you years of enjoyment with our virtually maintenance-free seamless steel siding.

"Now we can spend more time with our grandchildren and vacationing with friends without worry about painting our house again and again."

-- Bill and Sharon

Seamless Perfection

Re-siding your home with ABC Seamless will make your home look beautiful again and help eliminate the ugly seams and splices. Every siding panel that is installed is manufactured right at your home. We measure and cut each piece of siding to the exact length needed for that seamless look. No waste, no splices—just seamless perfection every time you look at your home.

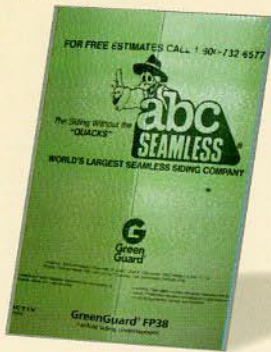

"The World's Largest Seamless Siding Company"

Energy Saving Insulation

When you see the ENERGY STAR label, you know that this product is a positive choice for energy efficiency, fuel savings and the environment.

Your siding installation is backed with a warm blanket of insulation underlayment wrap which has earned the Energy Star of Approval to help lower your energy bills and save our valuable natural resources.

Strong As Steel

with DuPont™ TEFLON®

Our **Duck-Matte™** Coil is tough because it's fortified with the DuPont™ *Teflon*® Surface Protector System. It effectively helps shed water so dirt can't stick to it as easily. Your home stays cleaner for a longer period of time, resists stains and looks beautiful longer.

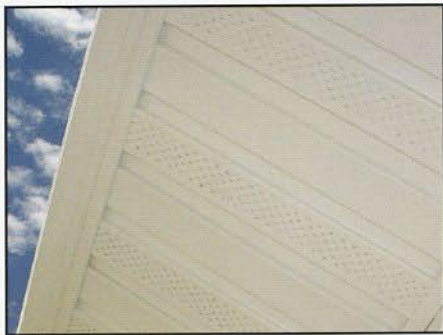

The pigments in our **Duck-Matte™** coil finish even helps lower your energy bills. Through technology, we've added infrared reflective pigments to our coil finish to reflect heat from the sun. This way, the heat is not absorbed and trapped in your home. Trapped heat raises the temperature in your home, making your air conditioner work harder, driving up your energy bills.

Plus, our matte finish gives a low gloss look, providing your home with a subtle, but distinguished appearance.

Color Coordinate Your Home with Accessories

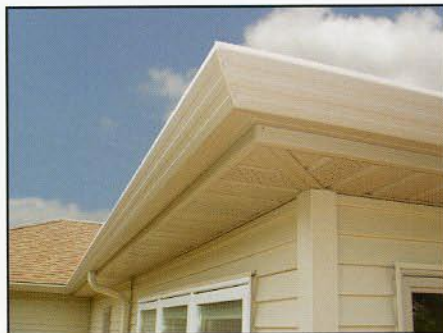

Our **Duck-Matte™** Coil is available in 10 colors and in a variety of siding profiles. You can match the colors exactly or coordinate with other ABC Seamless products like siding, log siding, gutters, gutter protection, soffit / fascia & trim.

Soffit / Fascia

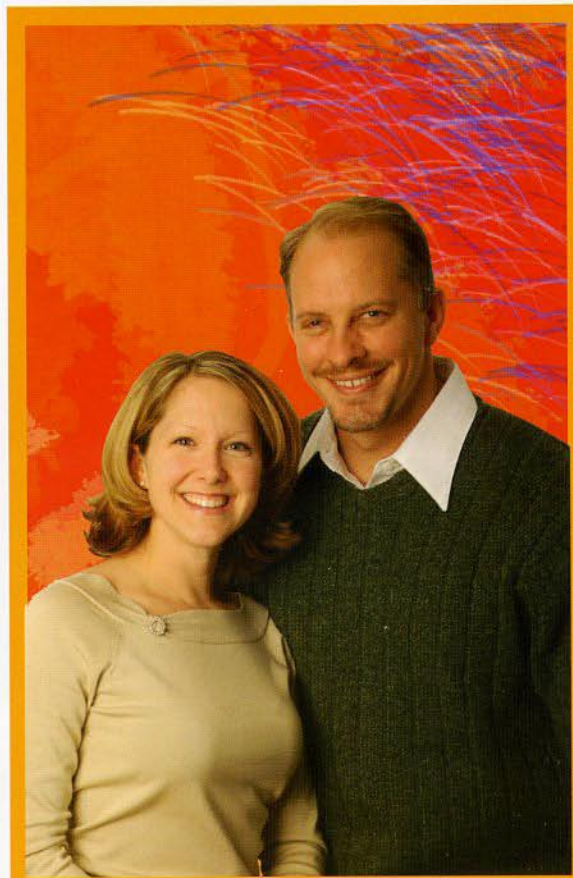

Seamless Log Siding

Gutters

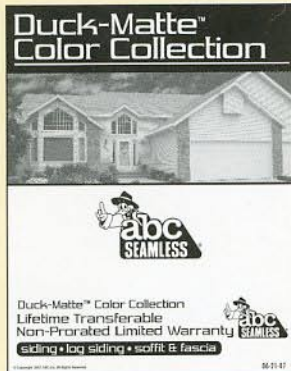

Window / Door Trim

"We fell in love with our house all over again when we had ABC Seamless re-side our home."

-- Kelly & Tom

Your Guarantee of Quality-The ABC Seamless Lifetime Transferable Limited Warranty

ABC Seamless is the recognized leader in the home improvement industry. That's a reputation you can count on, from the day your siding is installed until the day you sell your home. And to make your investment decision easier, ABC Seamless backs the **Duck-Matte™** Color Collection with its Lifetime Limited Warranty.
